

Summer Review for Honors Testing 2023-2024

Mathematics is a discipline that constantly builds on previous knowledge. Students entering honors-level mathematics courses will be expected to recall and apply the material that they learned in previous coursework. To help ensure your success, the high school mathematics department has compiled a list of problems that represent some of the most frequently used concepts in each honors course. Take time this summer to go over these problems. There will be a test over this prerequisite material in the first few days of class to determine your placement and readiness in your honors-level mathematics course.

Students will have access to instructional videos, solutions and practice through Delta Math.

Click on the link next to the course you are enrolled in for 2023-2024 to access your review materials:

Geometry Honors: [3W9K-28UZ](#)

Algebra 2 Honors: [2GA6-CJ58](#)

Pre-Calculus Honors: [V9F7-4RD4](#)

AP Statistics: [M2HJ-5S3Y](#)

AP Calculus AB: [P578-4B4X](#)

If that does not work:

1. Go to [Deltamath.com](https://deltamath.com).
2. Create a student account. Use your mcusd709 email account if you have one - you can log in with google to make it even easier to access your account!
3. Use the teacher code: 114112
4. Select the course you are enrolled in for the 2023-2024 school year.
5. Once your account is created, you will have access to the review.

Please log in to Delta Math by June 1st.

The Honors Summer Prerequisite Review Test is scheduled for Friday, August 18, 2023. Your performance on this test will be a significant factor in determining if you maintain your placement in honors. Class time will be provided on Thursday, August 17th for questions.
