Welcome to Morton High School!

Thank you for visiting our website. While you are exploring the Morton High School website please note our Academics tab which includes syllabi of our courses along with important departmental information. You will find additional information regarding academics under the Counseling tab, along with the many services and resources provided by our Counseling office. We strive to provide opportunities no matter what interests your student may have. From automotive technology to visual arts to AP courses and dual credit courses, we have a variety of options. With good planning and preparation, students have opportunities their senior year to participate in our cooperative education program (CHI), Strong Start, work-based learning and other programs.

We also provide many opportunities for our students to get involved in our award winning fine arts programs, highly successful athletics department and unique club options. Over 80% of our students are involved in at least one extra-curricular activity while many are involved in multiple activities. Involvement and engagement is the key to a positive high school experience and we encourage our students to get involved and find their passion.

At Morton High School we know that education extends outside the four walls of a classroom and we strive to prepare our students academically, while also preparing them for life after high school. I am so proud of our students, staff and community and invite you to join the MHS family!

Sincerely,

Deidre Ripka
Principal
