

Summer Review for Honors Testing 2020-2021

Mathematics is a discipline that constantly builds on previous knowledge. Students entering honors-level mathematics courses will be expected to recall and apply the material that they learned in previous coursework. To help ensure your success, the high school mathematics department has compiled a list of problems that represent some of the most frequently used concepts in each honors course. Take time this summer to go over these problems. There will be a test over this prerequisite material in the first few days of class to determine your placement and readiness in your honors-level mathematics course.

Students will have access to instructional videos and practice through Delta Math.

1. Go to [Deltamath.com](https://www.deltamath.com).
2. Create a student account. Use your mcusd709 email account if you have one.
3. Use the teacher code: 114112
4. Select the course you are enrolled in for the 2020-2021 school year.
5. Once your account is created, you will have access to the review.

Please log in to Delta Math by June 1st.

Honors Summer Prerequisite Review Test is scheduled for Thursday, August 13th, 2020. Your performance on this test will be a significant factor in determining if you maintain your placement in honors. Class time will be provided on Wednesday, August 12th for questions
